EDUCATION

- R.V.R & J.C College of Engineering** Guntur, India
B.Tech – Computer Science & Engineering; GPA: 8.01/10
Courses: Operating Systems, Data Structures, Artificial Intelligence, Machine Learning, DBMS, Cloud Computing Nov 2022 – Jun 2026

SKILLS SUMMARY

- Languages:** Java, SQL, JavaScript, HTML5, CSS3, Python (Basics)
- Core Java:** Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading (Basics), JDBC
- Frameworks & Technologies:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, React.js
- Databases:** MySQL, Oracle, PostgreSQL (Basics)
- Tools:** Git, GitHub, Maven, Postman, VS Code, Eclipse IDE
- Concepts:** MVC Architecture, CRUD Operations, JWT Authentication, SDLC, Agile Methodology

EXPERIENCE

- Lucid Technologies** Hyderabad
QA Intern May 2026 – Present
 - Worked with the QA team to understand software testing processes and application workflows in an Agile environment.
 - Performed functional, regression, and API testing using Postman to validate application features and backend responses.
 - Reported defects with clear reproduction steps and collaborated with developers during issue verification and testing.
 - Gained practical exposure to SDLC, STLC, defect lifecycle management, and software release processes.
- Miracle Software Systems** Visakhapatnam
Java Full Stack Intern May 2025 – Jul 2025
 - Developed backend components using Core Java, Spring Boot, and MySQL while applying Object-Oriented Programming concepts.
 - Implemented CRUD operations and RESTful APIs using Spring Boot and validated API endpoints with Postman.
 - Worked with MySQL and Spring Data JPA to perform database operations and integrate backend services.
 - Used Git and GitHub for version control and collaborated with team members during Agile development activities.

PROJECTS

- IndusMart Marketplace** 2026 – Present
Spring Boot, React.js, MySQL, Spring Security, JWT
 - Developing a full-stack marketplace application that enables users to register, browse products, and manage product listings.
 - Implementing secure authentication and role-based authorization using Spring Security and JWT.
 - Developing RESTful APIs for user management, product management, categories, and search functionality using Spring Boot.
 - Integrating the React frontend with Spring Boot backend services and MySQL database to perform CRUD operations.
 - Using Git, GitHub, Maven, Postman, and JPA/Hibernate throughout the development process while following layered architecture.
- StudentHub – University ERP System** 2025
Spring Boot, React.js, MySQL, Spring Security, JWT
 - Developed a full-stack university management system to manage students, faculty, courses, and administrative operations.
 - Implemented user authentication and role-based authorization using Spring Security and JWT.
 - Built RESTful APIs using Spring Boot and integrated them with the React frontend for CRUD operations.
 - Designed MySQL database tables and managed data persistence using Spring Data JPA and Hibernate.
 - Used Git, GitHub, Maven, and Postman for version control, dependency management, and API testing during development.

CERTIFICATIONS & LEADERSHIP

- Certifications:** Oracle Cloud Infrastructure 2025 AI Foundations Associate (Aug 2025); Agile Project Management – HP LIFE (Sep 2025); AI Fundamentals – IBM SkillsBuild (Feb 2025)
- Leadership:** Codex Club Web Battle Event Organizer – coordinated registrations, evaluation flow, and execution for a competitive web development event, demonstrating cross-team leadership.
